PROJECTS

GreenRoots *Full-Stack Herbal Products E-commerce Platform*

[Live](#) | [Client](#) | [Server](#)

An e-commerce platform Where Local Farmers or Entrepreneurs can sell local Natural Roots, Spices and leaves .

- Solved herbal product sales challenges by building a scalable full-stack platform with 4 core features: browsing, cart, checkout & order tracking.
- Improved security by implementing authentication & role-based access control for Admin and Customer roles.
- Reduced admin workload by developing a centralized dashboard to manage 3 entities: products, users & orders with analytics.
- Enhanced user experience and business visibility through complete workflows and responsive design.

Tech Stack: Next.js, Node.js, TypeScript, PostgreSQL, Prisma ORM, Tailwind CSS, Vercel

MediStore *Multi-Role Medicine Store E-commerce Platform*

[Live](#) | [Client](#) | [Server](#)

An e-commerce platform where Entrepreneur or Industrial chain shops can sell and Manage Medicine to customers.

- Solved inventory & sales management issues by building scalable multi-role platforms with end-to-end workflow.
- Reduced stock problems via real-time inventory management, tracking & low-stock notifications.
- Enhanced security by implementing role-based authorization and permission management.
- Improved checkout efficiency and decision-making through secure order systems and analytics dashboard.

Tech Stack: Next.js, Node.js, PostgreSQL, Prisma ORM, Tailwind CSS, Vercel

CERTIFICATIONS & TRAINING

Programming Hero - Next Level Web Development (Level 2) | Oct 2025 – May 2026

- Currently mastering TypeScript, Next.js, PostgreSQL, Prisma ORM, and Docker.
- Maintaining 95% average performance across assignments and assessments.

Programming Hero - MERN Stack Development (Level 1) | Jan 2025 – Jul 2025
